Circular in connection with the Refund.

It is observed that the public are remitting money to the treasury towards the cost of books, without ascertaining whether the books are available in the Book Depot and finding out of the exact cost of the book, with the result that the money paid by them has had to be refunded to them and unnecessary work has devolved on the office and the treasuries.

Lists of books (English and Kannada) which are newly printed and are ready for sale in the Book Depot are being published in the Gazette, every month. The lists are also available with all the Government Book Selling Agents and the Government Branch Book Depot Keepers in the State.

The public are therefore requested to refer to the said lists or make enquiries at the Central Book Depot, Bangalore, in the matter, before they remit money to the treasury.

It is also noticed that in some cases applications for refunds have been received in manuscript forms. As refunds are arranged in separate printed forms prescribed, applications for refund may be kindly made only in the prescribed printed forms so as to comply with audit requirements.

FINANCIAL DEPARTMENT

OFFICE OF THE COMPTROLLER IN MYSORE, BANGALORE.

Notification dated 14th December 1940.

Circular No. 632—W. A. D. II, dated 25th October 1940.

To

The Executive Engineers of Divisions.

Personal responsibility of disbursing officers in respect of expenditure incurred without sanctioned estimates or in excess of estimates.

1. Under para 684 (*a*), Mysore P. W. Account Code, expenditure incurred without adequate authority or in excess of sanction is required to be placed under objection in audit and included in the monthly statements of objections and in the annual Audit and Appropriation reports. "Expenditure incurred without adequate authority" is taken to include all expenditure not covered by sanctioned estimates. From a review of the outstanding items

in the objection statements, it is seen that in several instances works have been started on account of urgency or other special circumstances in anticipation of sanctioned estimates under orders of competent authority and that estimates, original or revised, are awaiting sanction. It is now proposed under orders of Government in the Financial Department to show expenditure on such items separately as distinct from expenditure incurred by the Executive Engineers (without estimates or in excess of estimates) on their own responsibility without the approval of the competent superior controlling authority. A clear distinction is required to be made by this office between objections for which the Executive Engineers are personally responsible and those which should not be booked against them personally.

2. To give effect to the orders of Government the following procedure will be followed in the preparation of the monthly statements of objectionable items.

(a) The columns 'Want of estimate' and 'Excess over estimate' will be sub-divided into (a) 'Want of estimate or Excess over estimate for which the Executive Engineers are personally responsible' and (b) 'Want of estimate or Excess over estimate for which the Executive Engineers are not personally responsible.'

3. Under para 81, P. W. Account Code, the Executive Engineers are required to communicate to this office all orders authorising them to start works for which estimates have not been sanctioned and where regular estimates have not been got up and submitted for sanction. Further, copies of Preliminary Estimates are also required to be sent to this office in accordance with para 4 (3) of G. O. No. Fl. 708-80—G. F. 288-38-13, dated 7—8th August 1939, passing orders on the Report of the Public Accounts Committee for the year 1937-38. In the accounts of the month in which expenditure is incurred for the first time, reference to the orders authorising the execution of works as also reference to the Executive Engineer's letter forwarding the copy of the preliminary estimates should be clearly and distinctly noted on the face of the relevant schedule dockets. Expenditure on such works will be shown separately in the Monthly Objectionable Items Statements as amounts placed under objection for which the Executive Engineers are not personally responsible.

4. This sub-division of classification of objectionable expenditure does not, in any manner, absolve the Executive Engineers from taking necessary action to regularise the expenditure by obtaining the requisite sanctions as speedily as possible.

5. The above procedure will come into force commencing with the accounts for January 1941.

The University Council may call for any further information which it may deem necessary before proceeding with the application or may advise the management that the application is premature and should be submitted in a subsequent year, or may decline to proceed with the application if it is satisfied that the arrangements made, or likely to be made, before the beginning of the academical year in which the courses are to be started for the conduct of courses are not sufficient or suitable, or if the college has failed to observe the conditions laid down in respect of any previous recognition, affiliation or approval.

Local enquiry.

If the University Council decides to proceed with the application, it shall direct a local enquiry to be made by a competent person or persons appointed by it in this behalf; provided that it shall be competent for the University Council to dispense with the enquiry abovementioned in the case of any subject or group of subjects in which it does not, for special reasons which shall be recorded, consider a local enquiry necessary.

If the conditions are not fulfilled by the end of the period fixed, the affiliation shall cease automatically, and in no case shall any extension of time be permitted. If the conditions are fulfilled the University Council shall have the power at the end of the period to confirm affiliation. The confirmation of affiliation shall be reported to the Academic Council and the Senate.

Recognition, etc., not granted with retrospective effect.

Affiliation shall in no case be granted with retrospective effect. Attendance at courses of instruction provided in colleges or in subjects before affiliation is granted shall not qualify for the grant of certificates of attendance; and such attendance shall not entitle any candidate to exemption from the production of certificates of attendance.

Withdrawal of affiliation

An application for affiliation may be withdrawn at any time before an order has been passed by the University Council, provided that the college shall not be entitled to a refund of the fee paid, in cases in which the University has incurred the expenditure of sending out an Inspection Commission.

Notification dated 14th December 1940.

Circular No. 632—W. A. D. II, dated 25th October 1940.

To

The Executive Engineers of Divisions.

Personal responsibility of disbursing officers in respect of expenditure incurred without sanctioned estimates or in excess of estimates.

1. Under para 684 (*a*), Mysore P. W. Account Code, expenditure incurred without adequate authority or in excess of sanction is required to be placed under objection in audit and included in the monthly statements of objections and in the annual Audit and Appropriation reports. "Expenditure incurred without adequate authority" is taken to include all expenditure not covered by sanctioned estimates. From a review of the outstanding items in the objection statements, it is seen that in several instances works have been started on account of urgency or other special circumstances in anticipation of sanctioned estimates under orders of competent authority and that estimates, original or revised, are awaiting sanction. It is now proposed under orders of Government in the Financial Department to show expenditure on such items separately as distinct from expenditure incurred by the Executive Engineers (without estimates or in excess of estimates) on their own responsibility without the approval of the competent superior controlling authority. A clear distinction is required to be made by this office between objections for which the Executive Engineers are personally responsible and those which should not be booked against them personally.

2. To give effect to the orders of Government the following procedure will be followed in the preparation of the monthly statements of objectionable items.

(*a*) The columns 'Want of estimate' and 'Excess over estimate' will be sub-divided into (a) 'Want of estimate or Excess over estimate for which the Executive Engineers are personally responsible' and (b) 'Want of estimate or Excess over estimate for which the Executive Engineers are not personally responsible.'

3. Under para 81, P. W. Account Code, the Executive Engineers are required to communicate to this office all orders authorising them to start works for which estimates have not been sanctioned and where regular estimates have not been got up and submitted for sanction Further, copies of Preliminary Estimates are also required to be sent to this office in accordance with para 4 (3) of G. O. No. Fl. 708-80—G. F. 288-38-13, dated 7—8th August 1939, passing orders on the Report of the Public Accounts Committee for the year 1937-38. In the accounts of the month in which expenditure is incurred for the first time, reference to the orders authorising the execution of works as also reference to the Executive Engineer's letter forwarding the copy of the preliminary estimates should be clearly and distinctly noted on the face of the relevant schedule dockets. Expenditure on such works will be shown separately in the Monthly Objectionable Items Statements as amounts placed under objection for which the Executive Engineers are not personally responsible.

4. This sub-division of classification of objectionable expenditure does not, in any manner, absolve the Executive Engineers from taking necessary action to regularise the expenditure by obtaining the requisite sanctions as speedily as possible.

5. The above procedure will come into force commencing with the accounts for January 1941.

FINANCIAL DEPARTMENT

COMPTROLLER'S OFFICE, BANGALORE.

Notification dated 14th December 1940.

Circular No. 632—W. A. D. II, dated 25th October 1940.

To

The Executive Engineers of Divisions.

Personal responsibility of disbursing officers in respect of expenditure incurred without sanctioned estimates or in excess of estimates.

1. Under para 684 (*a*), Mysore P. W. Account Code, expenditure incurred without adequate authority or in excess of sanction is required to be placed under objection in audit and included in the monthly statements of objections and in the annual Audit and Appropriation reports. "Expenditure incurred without adequate authority" is taken to include all expenditure not covered by sanctioned estimates. From a review of the outstanding items in the objection statements, it is seen that in several instances works have been started on account of urgency or other special circumstances in anticipation of sanctioned estimates under orders of competent authority and that estimates, original or revised, are awaiting sanction.

It is now proposed under orders of Government in the Financial Department to show expenditure on such items separately as distinct from expenditure incurred by the Executive Engineers (without estimates or in excess of estimates) on their own responsibility without the approval of the competent superior controlling authority. A clear distinction is required to be made by this office between objections for which the Executive Engineers are personally responsible and those which should not be booked against them personally.

2. To give effect to the orders of Government the following procedure will be followed in the preparation of the monthly statements of objectionable items.

(*a*) The columns 'Want of estimate' and 'Excess over estimate' will be sub-divided into (a) 'Want of estimate or Excess over estimate for which the Executive Engineers are personally responsible' and (b) 'Want of estimate or Excess over estimate for which the Executive Engineers are not personally responsible.'

3. Under para 81, P. W. Account Code, the Executive Engineers are required to communicate to this office all orders authorising them to start works for which estimates have not been sanctioned and where regular estimates have not been got up and submitted for sanction. Further, copies of Preliminary Estimates are also required to be sent to this office in accordance with para 4 (3) of G. O. No. Fl. 708-80—G. F. 288-38-13, dated 7—8th August 1939, passing orders on the Report of the Public Accounts Committee for the year 1937-38. In the accounts of the month in which expenditure is incurred for the first time, reference to the orders authorising the execution of works as also reference to the Executive Engineer's letter forwarding the copy of the preliminary estimates should be clearly and distinctly noted on the face of the relevant schedule dockets. Expenditure on such works will be shown separately in the Monthly Objectionable Items Statements as amounts placed under objection for which the Executive Engineers are not personally responsible.

4. This sub-division of classification of objectionable expenditure does not, in any manner, absolve the Executive Engineers from taking necessary action to regularise the expenditure by obtaining the requisite sanctions as speedily as possible.

5. The above procedure will come into force commencing with the accounts for January 1941.
